

AUDIT

The Coronavirus pandemic presents an unprecedented challenge to the entire healthcare system, including supply chain, regulatory surveillance and personnel movement, especially due to travel restrictions and on-site visits.

PQE Group solutions can help in overcoming disruptions or delays, thanks to:

- 1 A Global network of local auditors**
 - we can execute audits worldwide with our local auditors located in PQE subsidiaries and offices
- 2 Remote (desktop) and Virtual audits**
 - In case on-site audits are not allowed due to restrictions applied also to local personnel movement, we can execute remote (desktop) audits, enhanced with Virtual facility walk-throughs where possible

Thanks to PQE Group methodology we guarantee a low impact to Auditing activities, which can be done remotely when necessary:

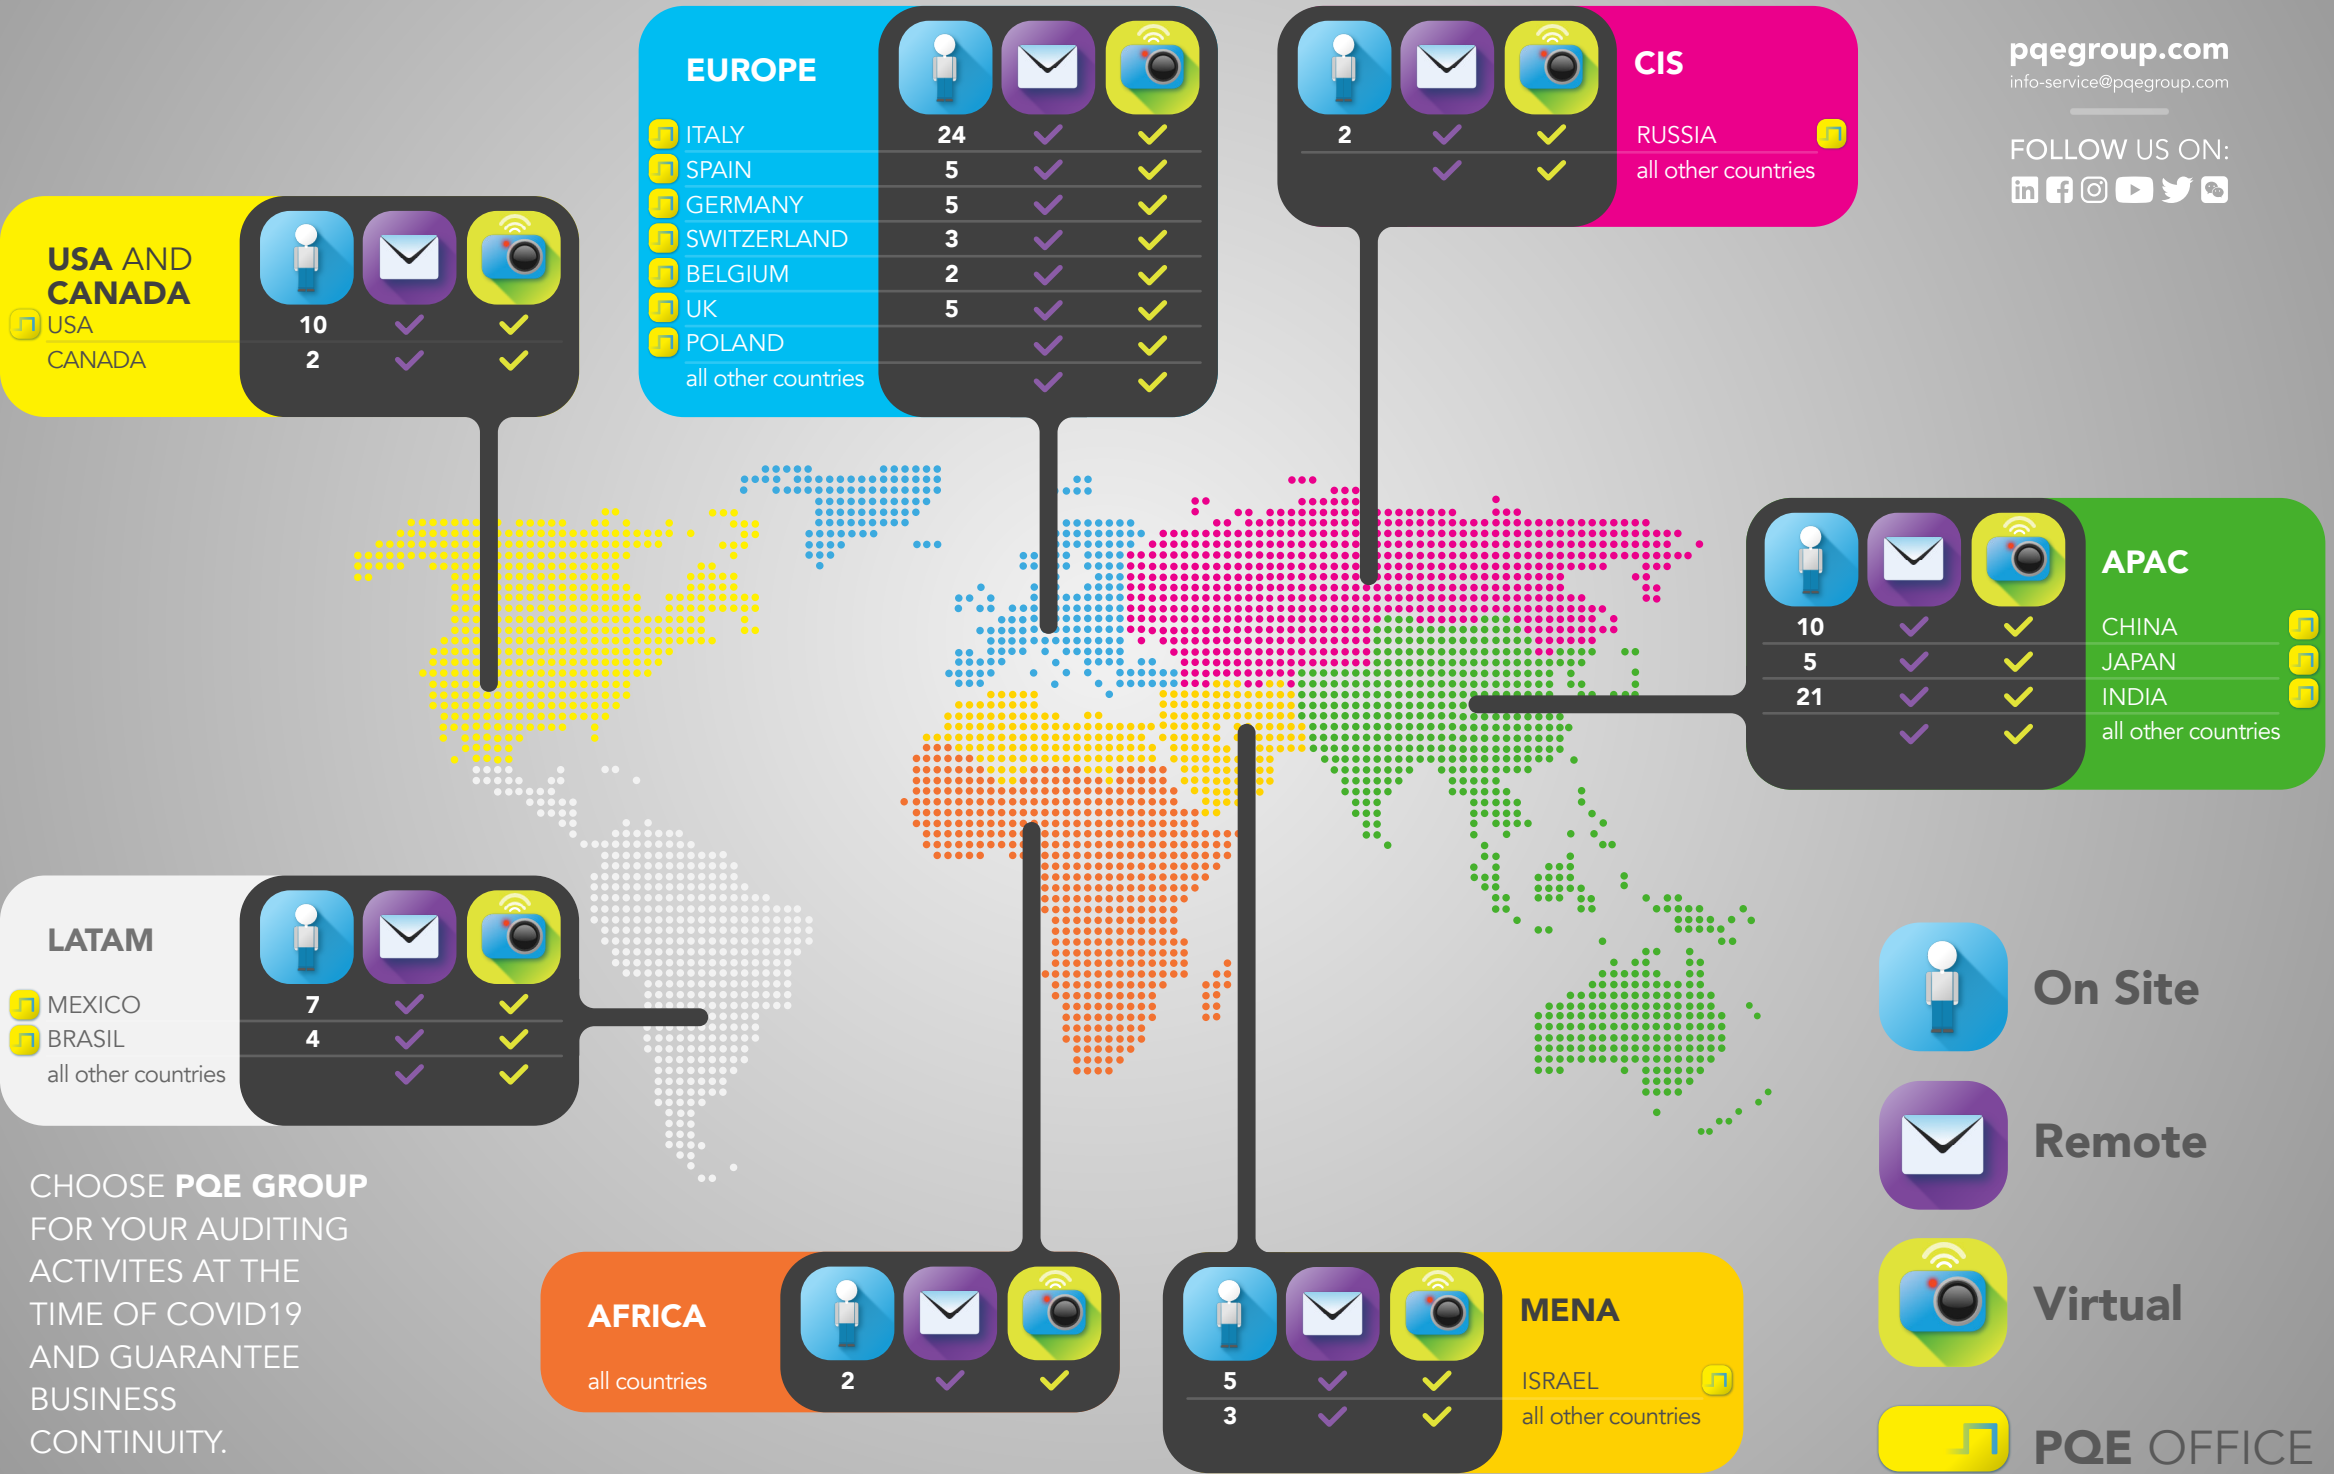

Documentation Review

SME Interview & Discussion

Virtual Facility Tour

CHOOSE **PQE GROUP** FOR YOUR AUDITING ACTIVITIES AT THE TIME OF COVID19 AND GUARANTEE BUSINESS CONTINUITY.
